## M-DECO® BURLESQUE

ELEGANCE WITH CERTAIN SOMETHING

Dita von Teese, Cher or Christina Aguilera - Burlesque has found huge recognition in pop culture over the last years. The new Burlesque Style moved stripping and dancing from filthy clubs to the stages of renowned theaters all over the world. Burlesque is not only about getting nude, it is based on the special eroticism of the elegance, beauty and especially the costumes of the performing "Diva" - or Vamp?

Got yet inspired by the love for detail, obscure color and mysterious veils of georgette fabrics? Createur for the love line of M-DECO® BURLESQUE with a wide range of imaginations is Mrs. Esther Lorber. Add that taste of eroticism and gothic myth to lingerie and day to day fashion.

## M-DECO® 3D-OPTIC WITH LAYERING EFFECT.

3D textures, layering of different filigree materials create a slight impression of movement. Although some of the accessories look slightly voluminous, they are light and transparent by organza and tulle. Chiffon and satin can build colorful bridges to flowers, ribbons and closings.

Ask the ARTDECO-Team about so much more ideas, that surely match your requirements.
